News & Views

Survey Findings:

In May, 2015, members at the St. Paul Street and Westfall Road sites participated in the IUE/CWA Inclusion and Diversity Questionnaire. Members were given surveys to return without providing their name, position or unit. The only identifying information asked was to provide their worksite (ie: WFR/SPS). Out of the **850+ members**; 176 responded. Based upon the responses here is what I can report...

Inclusiveness:

Information from our local office and officers stated our uniqueness is paramount in celebrating our diversity. Through physical and interactive engagement by leadership with the members, we can ascertain the areas our local can address. Most of our members need to feel included and updated in what we (as E-board and stewards) do and our processes.

What made our membership feel inclusive?

Many of our members have expressed the fact that they paid their union dues made them a member. Longtime members stated that they felt more inclusive when our union would hold the meetings between the various worksites, while new members stated that the orientation presentation made them want to be a part of the local. Others stated that inclusion for them came when they were ask to volunteer for various events or the membership social gatherings like the annual picnic or coming to the union hall to vote.

What made our membership feel un-inclusive/distant?

The distance can be attributed to a few factors: 1. not receiving information in a timely manner and 2. When provided on time membership did not review the information. Other factors that presents a challenge and has contributed to membership disconnect has been the reliance of follow-up by leadership to ensure that all are informed. I asked members if they knew who their steward is and many replied that they did not. I also asked the members if they had time to view the monthly newsletter or the FSW website. The majority of the responses were- they did not have the time, nor were they particularly interested in viewing them after work.

Diversity:

The membership is diverse and events in the past were useful to promote and celebrate diversity among the membership. The leadership is also diverse from different ethnic, social, gender and orientation backgrounds. While some members feel that the leadership is mostly comprised of minorities, based upon the configuration of the entire membership, leadership is not proportionately reflected based upon the membership the percentage of representatives.

Because our membership is diverse, we still need to find need ways to recognize diversity beyond the physical appearance and celebrate those differences. In the past we got pushback from promoting the diversity, however, the same medium we used to celebrate diversity in the past has been embraced by administration. While it could be perceived in an adverse way, we have to acknowledge that some members of our local are working with administration to continue to recognize and promote issues that deal with diversity.

Again, more transparency is needed to introduce leadership to the membership and highlight our differences and our unique perspectives. More exposure and visibility of leadership that is unknown by the members will help to foster solidarity and engagement in common agendas.

If you are interested in discussing the full report, I invite you to invite me, to schedule a time to meet you at the Federation Hall at: 570 Driving Park. I want to thank all the E-board Members, Stewards and all the Members who participated in the Survey. There will be more to come.

Remember: ALL MEMBERS MATTER,

In solidarity. LaTonya Wilcox –CCRE Chairperson
